

WASHLET® DESIGNED WITH COMFORT IN MIND

Our newest round front WASHLET has been redesigned to offer more space and comfort. The seat opening length now adds more room while still maintaining the general dimensions of a round front WASHLET.

FIT REQUIREMENTS

WASHLET C200 & C100 round front models bring comfort and hygiene into any bathroom variation. Measuring the distance from the front of the tank to the center of the seat holes allows for anyone to check and see if their toilet is the right fit.
